As a Monthly Water Market Insights subscriber, you'll get a coherent and complete monthly snapshot of the important issues affecting Australia's water markets; all in one value-packed report produced by our award-winning water market specialists.

With everything you need to know about Australia's ever-changing water markets at your fingertips, it has never been easier to stay informed on what's happening in water markets and make smart water decisions for your organisation.

If you love our [annual water markets report](#) and want more timely monthly updates, this is the solution for you.

“ Aither has developed a reputation for some of the deepest analysis and forecasting in the Australian water market. This standing alongside their independence from the market and their understanding of government policy means Aither is well placed to provide information to all users of the water market, as well as market regulators. ”

- General Manager of a listed Australian agribusiness

Why subscribe?

Stay in the know on important issues

Get a high-level monthly snapshot of the status of and outlook for Australia's water markets in one streamlined report. Learn everything you need to know about climate and water availability, allocation and entitlement markets, and water policy and management.

Build internal knowledge

We translate complex water market data into clear, simplified terms, helping you and your team build your knowledge and capacity in market trends and drivers and keep up-to-date with the latest water market issues.

Identify new market opportunities

Every month, you'll receive insights on different emerging water markets within and beyond the southern Murray-Darling Basin. Build your knowledge, gain an edge, and tap into new market opportunities.

Access policy & management insights

Every month, we shine a spotlight on relevant state and federal government policy and management events, with expert insights on how these will likely impact the water market and its participants, so you can get prepared.

Get data & insights you can trust

We have no stake whatsoever in the water market, so you can be confident our data and analysis are completely independent and come from only the most reputable sources.

Save time & hassle

Don't waste precious time with the hassle of sifting through huge volumes of complex data from multiple sources. Our water market analysts do all the hard work for you. This will save you over 40 hours every month.

What do I receive each month?

As a Monthly Water Market Insights subscriber, you'll get an email with a downloadable pdf report on the fifth business day of every month.

Each edition comes packed with over 15 pages of valuable data and insights, broken down into easy-to-digest sections, including:

- A high-level summary page of key market drivers, price movements and policy events for the month.
- Robust analysis covering:
 - Climate conditions and outlook
 - Water availability in the southern Murray-Darling Basin
 - Water allocation market activity
 - Water entitlement market activity
- Updates on the latest water policy and management events.

Every month, we include a special topic that provides insight into emerging water markets and policy issues within the southern Murray-Darling Basin and beyond.

You'll receive all this value for only \$5,500 + GST per year (that's just over \$450 per issue).*

Who uses our Monthly Water Market Insights?

Water Portfolio Managers and Investors

Water portfolio managers and investors enjoy having access to trusted, up-to-date water market information to share with senior executives and stakeholders and to spark ideas for new investment opportunities.

Executives

Public and private sector executives use our insights to build internal water market knowledge and capacity, helping them and their teams understand water market drivers and the issues important to all water market participants.

Businesses exposed to water risks

Businesses exposed to water-related risks, such as food retailers, food and beverage manufacturers and mining companies, also benefit from our monthly insights. Our reports educate their staff who need to know about water risks that could impact their supply chains and business performance.

“ Aither employs a unique combination of deep firsthand experience of the regulatory environment governing Australia's southern Murray-Darling Basin with a powerful analytical toolkit which always delivers insightful advice. ”

- Water Fund Manager

* For up to five recipients at your organisation. For unlimited distribution within your organisation, the annual fee is \$12,000 + GST.

Who is Aither?

Australia's leading water policy, infrastructure and market advisors to businesses and governments.

We are a team of award-winning, independent water policy, infrastructure and market advisors.

Every day we help businesses, investors, and governments make better decisions about managing Australia's scarce water resources. We do this by providing high-quality information, insights, and analysis to help our clients design strategies to take part in Australia's water markets successfully. Our team also provides policy and regulatory insights and infrastructure advisory services.

Whether you need custom-designed water strategies or assessments of your exposure to water-related risks and opportunities, you're in expert hands with Aither.

“ We value Aither's work for being robust, reliable and independent. ”

- Policy Strategy Officer, industry
